4 Hours Science Elective:

(See list of course options above under the "E. Science Core Elective")

Advanced Upper-Division Major Requirements (47 Hours):

(See UTD Departmental Advisor)

III. UTD ELECTIVE REQUIREMENTS (18 Hours)**Advanced Electives (6 hours):**

All students are required to complete at least 6 hours of advanced electives outside their major field of study. These electives must be either upper-division courses, or lower-division courses that have prerequisites.

Free Electives (12 hours):

Both lower-division and upper-division courses may be used as free electives, but students must complete at least 51 upper-division hours to qualify for graduation.

(See UTD Departmental Advisor)

Degree programs in the Erik Jonsson School of Engineering and Computer Science are governed by various accreditation boards that place restrictions on classes used to meet the curricular requirements of degrees they certify.

For this reason, not all classes offered by the University can be used to meet elective requirements.

Please check with your academic advisor before enrolling in courses you hope to use as free electives.

A MINIMUM OF 125 SEMESTER HOURS IS REQUIRED FOR GRADUATION WITH AT LEAST 51 UPPER-DIVISION HOURS.

Note: Core options listed reflect the TCCNS courses. Other courses that may potentially qualify for core requirements must be petitioned through an academic advisor or the department housing the student's major.

UTD does not accept vocational or technical courses in certificate or applied science programs, nor courses offered through the Workforce Education Course Manual (WECM), nor developmental courses.

Consult the current online UTD catalog for complete degree plan requirements.
